## OLYMPIC

In setting up the new Olympic Air (the new airline acquiring the logo/name of the Greek national carrier as part of the government privatisation process) we took delivery of both new aircraft as well as pre-owned aircraft from Lessors. Having previous positive experience with respect to services for delivery of new A320 from the Airbus production line we had no hesitation in selecting them once again. In addition we used Relaeer to assist us in the audit of pre-owned aircraft in Abu Dhabi, UK, Austria and Germany. Relaeer was very reactive to our needs and the personnel are professional, experienced and reliable with an ability to communicate salient points as well as take good decisions on behalf of their client.
