

RELAER CELEBRATES 1,000 AIRCRAFT DELIVERIES WITH CONDOR A330-900

Press Release

Toulouse Wednesday 22nd November 2023

Relaer, a leading independent service provider to the aircraft industry, has reached the milestone of 1,000 aircraft deliveries by facilitating the handover of the 11th Airbus A330-900 to German leisure carrier Condor.

During a ceremony in Toulouse on November 22nd, Mohamed El-Borai, President of Relaer, marked this special occasion by presenting a certificate to Christian Schmitt, Chief Operating Officer and Accountable Manager of Condor Flugdienst.

“We are very proud of our long relationship with Condor, which dates back to 2001. Relaer has ensured smooth delivery of new aircraft to Condor, including A321s from Hamburg and A330s from Toulouse,” Mohamed El-Borai said.

“Our thanks go to all our Airline and Lessor Customers who have entrusted us with performing factory inspections and delivery service for their new aircraft. Without their confidence, this milestone would not have been possible.”

“Relaer has supported us as an experienced and reliable partner for many years now. Today we welcome the newest member of our fleet and would like to thank our partner Relaer for the great teamwork regarding this”, said Christian Schmitt, “We look forward to continuing our close partnership for the upcoming deliveries within the next years.”

About Relaer

Founded in 2001 and based in Toulouse, Relaer is a critical partner for airlines and leasing companies across the world, with a wide portfolio of technical and commercial solutions adapted to every stage of an aircraft’s life. With experienced teams and offices in both Toulouse and Hamburg, Relaer performs factory inspections for Airbus and ATR deliveries. Each year, Relaer supports an average of 50 deliveries, bringing together unique experience and insight for the benefit of its customers. Relaer also supports airlines and aircraft owners through services including lease and purchase negotiations, asset management, lease transitions, heavy maintenance oversight, interim management, and organisation reviews. Additionally, its sister company Ardavon specialises in providing commercial and financing solutions to airlines and aircraft investors. Relaer has 287 clients, including more than 180 airlines and an extensive number of leasing and financial organisations.

About Condor

As Germany's most popular leisure airline, Condor has been taking its guests to the world's most beautiful holiday destinations for more than 65 years. Every year, more than nine million guests fly with Condor from the nine largest airports in Germany and from Zurich in Switzerland to around 90 destinations in Europe, Africa, and North America. Condor operates a fleet of more than 50 aircraft that are maintained by the company's own maintenance operation, Condor Technik GmbH, according to the highest safety standards at the Frankfurt and Dusseldorf locations. In spring 2022, the German carrier unveiled its new brand identity: Condor is vacation and vacation is stripes. Inspired by parasols, bath towels and beach chairs, Condor now wears stripes in five colours. This clearly shows the development from a leisure airline to a unique vacation brand. The new design was unveiled with the first A330neo in 2022. As the German launch customer, Condor plans to fly a total 21 A330neo long-haul aircraft. Thanks to state-of-the-art technology and maximum efficiency, the Airbus A330neo consumes just 0.55 gallons of fuel per passenger per 160 miles – well below the industry average. Moreover, Condor will receive 41 brand-new short- and medium-haul aircraft of the A32Xneo family from 2024 and will therefore enable a more responsible way of travelling in the future.
