Etihad Airways have used Relaer services to carry out the inspections during the final assembly of our Airbus fleet at Toulouse and Hamburg. They have assisted Etihad Airways during the whole process from the start of the sections arriving on the Final Assembly Line to the Delivery of the aircraft in the most professional manner and using their expertise to achieve an excellent result which has resulted in the smooth entry into service of each aircraft. Relaer have provided the service for the following Airbus types, A320, A321, A330, A340-500, A340-600 and A380's. In particular on the A380 program and the delivery of a head of version, Relaer became part of the Etihad team and we worked as one to overcome supplier and OEM issues. This proved crucial in getting Airbus to comply with their promises and in the delivery of a quality aircraft.

London, 02nd July 2024

We have had the pleasure of working with Reliance Aero for several years in support of our on-going widebody aircraft delivery programme in Toulouse. Their technical expertise and on-site support services are excellent and meet our needs throughout all phases of the busy delivery schedules.

Reliance Aero's team demonstrates a high level of competence and dedication at all levels, ensuring our deliveries and downstream operations can run smoothly.

We value our partnership with the team and appreciate all their hard work and support.

Sincerely,

Lee Butterfield

Head of Aircraft Programmes and Asset Management

As always Relae's support on this delivery has been instrumental to VIR receiving a quality asset.

Thank you to all the team and thank you specifically to you for supporting the delivery phase which was not without its excitement!
