We have used Relaer for both Aircraft Delivery Service as well as annual inspections on our leased aircraft. Relaer staff are very professional and understand the customer needs. We have found them to be pro-active and able to anticipate issues whilst keeping us advised of the progress. We are pleased to be working with them and they have not only supported us but our Lessee.

Gladiator Leasing Ltd via one of its subsidiaries owned 3 A330 aircraft on lease at Brussels Airlines. We have engaged Relaer to perform Asset Management requirements for this transaction (including Maintenance Reserve Management & Annual Inspections) from purchase up to redelivery in 2019. Relaer has been managing the whole redelivery project, always keeping in mind our best interest while ensuring compliance with the schedule and preserving our relationship with the Lessee and the buyer. In addition to the technical aspects, such as record and physical inspection, they supported us with the commercial negotiation and final invoicing. During the whole project, Relaer acted as one of our trustworthy representatives. We will not hesitate to engage Relaer again for any other related job we might require from time to time.

In setting up the new Olympic Air (the new airline acquiring the logo/name of the Greek national carrier as part of the government privatisation process) we took delivery of both new aircraft as well as pre-owned aircraft from Lessors. Having previous positive experience with respect to services for delivery of new A320 from the Airbus production line we had no hesitation in selecting them once again. In addition we used Relaer to assist us in the audit of pre-owned aircraft in Abu Dhabi, UK, Austria and Germany. Relaer was very reactive to our needs and the personnel are professional, experienced and reliable with an ability to communicate salient points as well as take good decisions on behalf of their client.

Reykjavic, 24th March 2024

To Whom it may concern

We needed to repossess an aircraft from a lessee at short notice in a non-EU jurisdiction. Rel aer responded promptly to our request in having an inspector on site and was able to recover the aircraft and records within a short time frame. They maintained good communication with our team as well as facilitated issues with the local airworthiness authority and were supportive with the communication with the Lessee.

Rel aer acted professionally and demonstrated an excellent understanding of a difficult and sensitive situation between us and the lessee to both parties' entire satisfaction.

We are happy to recommend them.

Sincerely,
